

A machine that applies both tamper evident bands and beautiful shrink sleeve labels... **at speeds that are needed for high production environments.**

400SL SHRINK SLEEVE/TAMPER EVIDENT BAND APPLICATOR

INDUSTRIES SERVED

- Food
- Beverage
- Dairy
- Water
- Pharmaceutical
- Nutraceutical
- Blow Molding
- Health/Beauty Aids
- Industrial
- Contract Packaging

OVERVIEW

The Axon EZ-SEAL 400SL heat shrinkable sleeve labeling system provides high production rates for most full body and tamper evident banding applications. Capable of processing both tamper evident bands and full body sleeves, the 400SL is the perfect solution for production requirements in the 400 packages per minute range. This sleeve labeler accommodates product diameters from 1-1/4" to 4-3/4".

The 400SL features a technologically advanced film delivery system that can accommodate a wide variety of container shapes. As an added benefit, tool-less changeover between sizes is quick and easy. All of the above features provide a flexible system designed to meet your current needs as well as accommodate future opportunities. As with all Axon machinery, the EZ-SEAL 400SL can be easily integrated with existing lines, or Axon can provide a complete system including tamper evident banding applicator, conveyor and heat shrink tunnel.

BENEFITS

- **Fast** - Production rates in excess of 400 PPM
- **Versatile** - Can process both full body sleeves and tamper evident bands on same system
- **Ease of use** - A user-friendly interface with multilingual capabilities, modular components, a small footprint and tool-less changeover
- **Aftermarket Services** - Dedicated service department with PMMI accredited trainers and an extensive parts inventory available with same-day shipping
- **Flexibility** - Thin gauge film capabilities

PRODUCT PACKAGING

- Provides eye-catching graphics on unique shaped containers
- Enhances shelf appeal
- Provides added security with visual tamper evident feature
- Full Sleeve / Tamper Evident Band Combination

STANDARD FEATURES

- **Allen Bradley Controls** - State-of-the-art technology with worldwide support capabilities
- **Open Construction** - Allows for easy maintenance and cleaning
- **Machine Status Light Stack** - Provides easy verification of machine status from a distance
- **Three Axis Servo Control** - Provides precise film feeding and cutting at high speeds
- **Print Registration** - Allows for the use of print registered films
- **Product Separation and Timing System** - Provides consistent product spacing for efficient operation
- **Stainless Steel with Aluminum Extrusion Construction** - Allows machine to operate in most production environments
- **Dual Reel Unwind System** - Allows for splice on-the-fly for continuous operation
- **Color Touchscreen HMI** - Provides user-friendly means of machine control and status monitoring

OPTIONAL FEATURES

- Stainless Steel Package
- Preventative Maintenance Service Contracts
- Reject Station
- UL Certified Electrical Panels
- Perforation
